

Our curriculum

Our curriculum is designed to be inclusive and accessible for all children, supporting the children who have special educational needs and involving them in all experiences. We consider the all round development of your child and provide opportunities based on your child's interests which enable your child to express ideas, reflect on experiences and information, share thoughts, make decisions, make discoveries, and explore and engage in first hand experiences at nursery.

Themes are planned weekly and long term based on your children's interests and events that are coming up. Themes are used as a working document following on all children's interests as and when they change.

We provide a fun outdoor learning experience for all children and have natural spaces for children to learn and explore which develops their resilience, sense of achievement, problem solving and communication skills.

Our curriculum

Our curriculum is designed around the needs of our children and is organised into seven areas of Learning and Development which are our educational programmes that we offer daily and provide activities on all areas.

These are:

- Communication and Language
- Personal, Social and Emotional Development
- Physical Development
- Literacy
- Mathematics
- Understanding the World
- Expressive Arts & Design

Throughout the year we organise several exciting activities, outings, and visits/visitors to enhance the children's learning and give experiences to children who may not be able to access these at home.

Our vision

The children to have a happy environment where they feel safe and secure.

The children to have an input in activities based on their own interests.

To support their knowledge and build on their resilience & independence.

To help all children to prepare the for their future.

Including all children and treating them uniquely and adapting the environment.

To support each individual child's learning and development.
